The important monument is the 'LAT' or a stone pillar of Feroze Shah measuring slightly less than 5 metres in height and 1.90 metres in circumference at the base. It stands in the centre of the Idgah.

Humayun Ki Masjid is another monument. It is a small and unassuming but proportionate and well decorated small mosque. According to a legend, the Mughal Emperor, on his return to Amarkot, after his fateful defeat at the hands of the Sher Shah Suri, happened to pass through Fatehabad on Friday and is said to have prayed at the mosque. Humayun's inscription was originally found here and later studded into the screen wall of the Idgah.

Delhi-Hissar-Sulemunki road passes through the town, thus the shape of the town has emerged into linear form due to developments along the Highway. Fatehabad distributory flows in the western side of the town. It is also acting as a source of water supply to the area. The Fatehabad minor flows from north to south-west dividing the town in two parts. On the north side of the town there is low lying area. The town is floodable in the area between Ratia road and Bhunna road. The soil is sandy loamy and the bearing capacity of soil is 1.08 kilogram per cubic centimeter. Ground water table exists average 80 feet deep.
The slope of the town is towards Ratia road. The town was flooded in 1991 and the area falling between Ratia and Bhumna road was submerged.

IV  Availability of infrastructure:

(a) Public Utilities:- The town has one 33 kilovolt sub station, one 132 kilovolt and one 220 Grid Station. There is one 440 kilovolt grid station under construction. The town is well connected with the surrounding areas through road network. It has a large grain market. It also commands cotton market.

VI  Demography:

Since the year 1951 population trends of Fatehabad have been quite encouraging. In 1951 town has a meager population of 2968 persons only which increased to more than seven times by 1971 and about 20 times up to 2001. The growth rate during 1991-2001 was 31.57% i.e. increasing population 45,500 (1991) to 59863 (2001). ### VII Existing transportation network:

The town is well connected by National Highway No. 10 named as Delhi-Hisar Sulimanki road which connects Sirsa and Hisar towns. Fatehabad is connected to Chandigarh by Fatehabad-Bhunna-Uklana-Narwana-Kaithal-Ambera-Chandigarh scheduled road. The town is also well connected to other State i.e. Punjab State and by Rajasthan State by Fatehabad-Ratia-Budliadhia scheduled road and Bhuttab-Hhadra road. The town is not connected with rail link which affects the transportation of agriculture products of the town. The town is well connected by Mandi Towns namely Bhattu Mandi, Ratia Mandi, Tohana Mandi, Dharsul Mandi and Bhunna Mandi.

### VIII Need for declaration of Controlled Area:

The town has experienced considerable changes in its physical and functional structures, only in the recent past as a result of which lot of hap hazard growth has taken place. Therefore, in order to check the haphazard and unplanned growth of the town. A sizeable area around Fatehabad town has been declared as controlled area under The Punjab Scheduled Roads and Controlled Areas, Restrictions of Unregulated Development Act, 1963, (Punjab Act 41 of 1963), vide Haryana Government, Town and Country planning Department, notification No. 10992-VDP-71/3864, dated the 10th September, 1971 and the Development Plan for this controlled area was prepared and published vide Haryana Government, Town and Country planning Department, notification No. 1411-2TCP-J/73/10815-A, dated the 10th April, 1973, which was published in Haryana Government Gazette on 1st May, 1973. In year 1997 the town was declared as district headquarter. The revised development plan upto 2021 A.D. for a population of 2.7 Lacs has been prepared (see table-I). The following are the main factors for revising Development Plan:

   - Necessity of residential, commercial, industrial, Institutional uses.
   - Due to change in the status of town from Sub Divisional to District Headquarter it will require more residential, institutional, commercial and industrial areas. Further keeping in view the possibility of increase in industrial activities, institutional activity and commercial activity in the town, there is necessity of setting up a Transport Nagar and the infrastructure like District Commercial centre, wholesale market, warehousing etc.

### IX Proposals:

**(a)** Constraints/limitations and potentials

The town does not have any railway link Part of the town is flooded towards Ratia, which hamper further extension of the town. Fatehabad minor is also a hindrance because it divides the master plan area. Soil is sandy loamy which is also a barrier for good quality and quantity of agricultural produces.

**(b)** Population projections

The population of the town in 1991 had been 45500 persons and which increased to 59863 persons in 2001. Due to availability of infrastructure in the town with a growth rate of 31.57 percent. The population of the town in coming decade i.e. 2011 is expected to be getting a boost and shall reach as 1,20,215 persons due to good transport linkage, good infrastructures, recreational activities etc. The projected population upto 2021 A.D. is expected about 2.7 lacs persons.

### X Land Use Proposal:

The revised draft development Plan has been prepared for the projected population of 2.7 lacs persons by 2021 A.D. To meet the requirement of various socio-economic activities in the town, land is rationally earmarked for different land uses taking into account the nature of town; inter-linkages of town and the new status of town as district headquarter. Total 3420 hectare area is proposed for urbanization for the population of 2.7 lacs assuming over all density of 80 persons per hectare. The extent of various uses is given below:
