Explanatory note of the Draft Development Plan, 2025-A.D. for Controlled Area of village Talwandi Rana and Behbalpur tehsil and district Hisar

I Introduction
Village Talwandi Rana and Behbalpur is located at a distance of about 9 kilometers and 17 kilometers from Hisar town on National Highway number-65 leading from Hisar to Ambala. These are small villages of population 5452 and 3965 respectively as per census of 2001. These villages have almost all the facilities and amenities to be required for such type/ size of settlement

II Need to declare controlled area
The National Highway number 65 remained uncontrolled for the last many years. Due to rapid growth of Hisar town towards these villages some unauthorized constructions in shape of residential, or other similar activities have started coming up. Keeping in view the growing unplanned growth along National Highway number 65 Controlled Area has been declared around village Talwandi Rana and Behbalpur published in Haryana Government Gazette vide notification No. CCP(NCR)/HSR/TLWD-R(C.A.)-2007/ 3769, dated the 7th November, 2007 and additional controlled area published in Haryana Government Gazette vide notification No. CCP(NCR)/HSR-TDL/ACA/2010/83, dated the 12th January, 2010. The main aim to declare the controlled area around village Talwandi Rana and Behbalpur were to check and regulate the unauthorized and haphazard growth of urbanization along National Highway number-65.

III Development proposals
As per 2001 census the population of village Talwandi Rana and Behbalpur was 5452 and 3965 respectively. However, the area of the proposal comes in revenue estate of village Talwandi Rana and Behbalpur on both sides of National Highway number-65. To control the haphazard and unauthorized construction the development proposal has been prepared. The Rajiv Gandhi Thermal plant is operational which is along the National Highway number-65 and area falls in revenue estate of village Khedar. It is just 12 kilometres away from the proposed site and 4 kilometres to Barwala. The proposal will cater the residential thrust of neighborhood area and the Rajiv Gandhi Thermal plant. The proposal has been prepared to accommodate 32500 persons by 2025AD with the proposed residential density of 100 persons per acre. Land use table is given as under:
