3. ANNEXURE A

EXPLANATORY NOTE ON THE DRAFT DEVELOPMENT PLAN 2021 A.D, FOR CONTROLLED AREA MAHENDRAGARH.

1. INTRODUCTION
Mahendragarh town lies in the extreme south of the state and is situated at a distance of 149 kilometers from Delhi towards its south-west. It is located about 25 kilometers from its district headquarters at Narnaul. The town is well connected by meter gauge railway line and lies on Delhi-Rewari-Bikaner section. It is also well connected by road network with the towns of Loharu, Dadri, Narnaul and Rewari. It is a small shapely town with a population of 23977 persons as per 2001 census.

Mahendragarh town was previously known as Kanand which took its name from the Kannandla group of Brahmans. Malik Mahdud Khan, a servant of Babur founded it. Maratha ruler Tantia Tope built a fort at Mahendragarh during 17th Century. Narinder Singh, ruler of East-while princely estate of Patiala in honour of his son Mahinder Singh named the above fort as Mahendragarh in 1861. The Mahendragarh district was formed in 1948. The district headquarters of the Mahendragarh district exists at Narnaul.

2. EXISTING LAND USE PATTERN, INFRASTRUCTURAL FACILITIES AND GROWTH TRENDS
Narnaul-Dadri road bound the existing town on its western side. Delhi-Bikaner railway line and Mahendragarh-Rewari road on the northern side and Dohan river on its eastern side. It is well connected by rail and road network. Like other towns, it also presents a picture of mixed land uses as grain market is located near railway station, vegetable market on the eastern side of the existing fort and other activities like Post Graduate Government college, Industrial Training Institute, Rest House, Civil Hospital and Veterinary Hospital etc. are all scattered around the existing town. The total area of the town is 1060.0 hectares out of which 328.60 hectares i.e. 31% is developed and the remaining area is lying vacant in the form of vacant pockets.

At present the town has normal water supply from canal based water supply system and tubewells. The drainage of the town is not proper as the storm water gets drained in the Dohan river. In the field of education the town has Post Graduate Government College with a separate women wing, 12 High / Senior Secondary Schools, Industrial Training Institute, Junior Basic Training Centre, Sanskrit Pathshala, Vocational Institute and a Middle and Primary Schools.

3. DEMOGRAPHIC CHARACTER AND POPULATION PROJECTION
As per 2001 census, the town had a population of 23977 persons. The past trend of its population growth of the town has been increasing gradually every decade as evident from the table below. However, considering the regional setting of the town it is expected that the growth rate would increase if proper infrastructure and other educational facilities are provided in near future. The decade-wise population of the town since 1951 is as indicated in the table below:-
The population for 2011 and 2021 A.D. has been projected keeping growth rate of previous decade in view wherein population of 4 numbers of villages have been added as these villages will be engulfed within the proposed urbanisable zone.

**ECONOMIC BASE**

The development of a planned sector would considerably increase its population growth, as there is no planned colony/sectors presently exist in this town. Keeping these effects in view, a growth rate of 32% up to 2011 A.D. and 38% upto 2021 A.D. has been assumed. In view of increasing growth trends registered in the previous five decades as presented in the above table, the population of the proposed zone is expected to accommodate a population of 55000 persons by 2021 A.D.

**PROPOSALS**

It is assumed that the town will have a population of 55000 persons by 2021 A.D and the draft development plan has been made integrating the proposed development with the existing town. draft development plan of Mahendragarh town has been prepared on grid iron pattern with proposal of 22 sectors. Major area for development has to be kept around the existing town i.e. with in municipality limit and only seven sectors have been proposed in the controlled area. The total urbanisable area works out to 889.00 hectares, wherein 55000 persons are expected to be accommodates with a town density of 62 persons per hectare. Provisions of major land uses in the draft development plan of controlled area as under:
