ANNEXURE A
EXPLANATORY NOTE ON THE DRAFT DEVELOPMENT PLAN 2021 AD FOR THE CONTROLLED AREAS NARNAUL

(i) Historical Background:
The Narnaul town is accommodating Mahendergarh Distt. Headquarter offices. This town was found in 900 A.D. near Dhosi hills, which were associated with the Vedic Sage Chawan Rishi. The tomb of Shah Villayat, Sobha Sagar Talab, Jal Mahal, Chor Gumbej, Chhota of Rai Bal Mukand are the important historical monuments of the town.

(ii) Location and Regional Setting:
Narnaul town is a district headquarter of Mahendergarh district. It is located in the extreme south of the Haryana State at a distance of 140 kilometers from Delhi towards its south-west and 25 kilometers from Mahendergarh. It caters the needs of surrounding rural hinder land lying both in Haryana and Rajasthan. The meter gauge railway line connects this town with Delhi, Ringus, Phulera and Ajmer. The State Highways No. 17 and 26 pass through Narnaul and link it with Rewari, Mahendergarh, Nangal Choudhary and Singhana.

(iii) Physiography:
The town slopes towards north-east. The south-eastern part of the town is comparatively low lying area and hence this part of the town has been kept free from habitation in the Draft Development Plan. The old part of the town is situated on mound. The new part of the town is expanding along Narnaul – Mahendergarh road and Narnaul-Singhana road. The Western Narnaul Distributary flows north to south along western side of the town. The Krishanawati river also flows towards north in the eastern side of the city.

(iv) Availability of Infrastructure:
(a) Utilities:
At present, the Narnaul town has one electric sub station with a capacity of 100 MVA, one 33 kilovolt substation with installed capacity of 20 MVA and one 11 kilovolt sub station with installed capacity of 16 MVA. The Public Health Department has recently constructed the canal based water works to cater the need of the public. Haryana Urban Development Authority has also initiated its development activities as it has acquired and developed Sector –1 comprising an area of approximately 250 acres for residential purpose. Haryana Urban Development Authority has also acquired 25 acres land for augmenting water supply scheme of the town. With the construction of this water works, the water supply system of the town would improve. The Public Health Department has framed a water supply scheme for providing 30 cusec water for Narnaul town from canals and tube wells system. Narnaul town is covered with approximately 40 % combined sewer system. Haryana Urban Development Authority has selected a site in sector-10 for sewerage disposal and treatment plant. With the
construction of this plant, the sewerage disposal problem of the town will be solved to great extent. A drain which is flowing in the central part of the town is taking care the drainage problem of the town.

(b) Social Infrastructure:

Narnaul town has one post graduate college, one degree college for girls, five senior secondary schools, one industrial training institute and one polytechnic institute. The town also has an air strip at an adjoining village Bachhod. The Narnaul town provides road linkages with state of Rajasthan from three sides encouraging the marble industries to flourish. The Haryana Urban Development authority has developed a residential sector after acquiring the land on Narnaul-Mahendergarh State Highway. The town presents a picture of mixed land uses as grain market near Rajeev Gandhi Chowk, vegetable market near Bhagat Singh Chowk, timber market near Head Post Office and stone market at railway road have already been developed.

The town is enjoying the facility of telephone exchange having capacity of 43 regional switch units. The town has 100 bedded civil hospital, an independent tuberculosis hospital with a capacity of 50 beds, maternity and clinic welfare centre. The town provides sufficient infrastructure for sports as it has Olympic Conference Hall, lawns for social gathering and Netaji Subhash Chander Bose stadium.

(v) Economic Base of the Town/Functional Status:

Being located in one of the backward areas of the state, the Narnaul town is witnessing slow growth rate. During the decade 1991-2001, the town registered a growth rate of 51.72%. With the improvement of its socio-economic infrastructure the population would grow with a higher rate of growth.

(vi) Population/Demography:-

As per 2001 census, the town had a population of 62091 persons. The decade wise population of Narnaul town since 1961 is under:

If the decennial growth rate of 51.72% for projection of population by 2021 A.D. is taken, it will not be realistic. Keeping in view the various considerations i.e. induced industrial growth, induced economic activities, growth of villages engulfed within the urbanisable area, the growth rate upto 2011 A.D has been proposed to 70% and by 2021 A.D. it has been proposed to 85% Therefore, the Development Plan is prepared for 2.50 lac population. The density of town will be 109 persons per acre.

(vii) Existing Transport Network:

Narnaul town is the district head-quarter of district Mahendergarh. The town is very well linked with adjoining towns of Rewari, Mahendergarh, Nizampur and Nangal Chaudhary of Haryana state and Singhana of Rajasthan by roads and railways.

(viii) Proposals:

The Draft Development Plan of Narnaul has been designed for projected population of 2.50 lacs upto 2021.

Proposed Land Uses:

Draft Development Plan has been designed with net residential density of 250 persons per hectare. The extent of various land uses is given as below:-

The aforesaid urbanization area has been proposed towards north of the existing town. No urbanization has been proposed towards southern part of the town which is flood prone area.

**DISCRIPTION OF LAND USES:**

1. **Residential:**
   It is estimated that by 2021 AD, proposed population would be accommodated in an area of about 1000 hectares proposed for residential purpose. The said residential area has been proposed to be developed on neighborhood concept in sectors 1,2,3,4,5,6,8 part- 11 and 12. These sectors have been proposed towards north of the existing town which is free from flood. The sectors have been planned with a population all density of 250 persons per hectare. All sectors would be provided with essential facilities like sewage, drainage, water supply, shopping, educational and recreational facilities.

2. **Commercial:**
   In order to cater the commercial needs of the town, an area of 226.43 hectares has been proposed in sector 9, 10-A to accommodate the business offices, restaurants, whole-sale markets, whole sale and retail shops and other allied uses. An area of about 95 hectares in sector-10A has been reserved for city centre. An area of 90 acres has also been reserved/proposed near Jal Mahal for fodder market and other commercial activities.

3. **Industrial Zone:**
   In the Draft Development Plan, an area of 218 hectares has been reserved for light, medium, heavy and extensive industries in Sectory-7 on both sides of the existing railway line. The existing industries of the town have been preserved as such in sector-11.

4. **Transport and Communication:**
   An area of 105 hectares is proposed under this zone to provide smooth flow of road and railway traffic. The existing meter gauge line is proposed to be converted into broad-gauge line. A ring road which has been designated as north eastern and western bye-pass has been proposed all around the town to facilitate the inter-city traffic movement. A transport nagar in an area of 10 hectares has been proposed on Narnaul-Rewari road adjoining the industrial area in Sector-7. Part of sector 6 has been kept reserved for future needs of this zone. The existing bus stand of town has been preserved as such in Sector-10 Part along Rewari-Narnaul State Highway. In order to regulate traffic smoothly, two bridges have been proposed on the periphery road on railway line.

5. **Public Utilities:**
   An area of 970 hectares has been reserved for this purpose under public utilities for accommodating the power house, water works and disposal works of the town.

6. **Public and Semi Public Uses:**
   An are of 80 hectares has been proposed for public and semi-public uses on Narnaul-Mahendergarh road to cater the needs of the Town. A district jail existing in Sector-4 has been preserved as such in the purposed Draft Development Plan.

7. **Open Spaces and Green Belts:**
   Keeping in view the site conditions, a town park with an area of 65 hectares has been provided in sector-10. Krishanawati river passes through it. In addition to this area, provision of small parks has also been made in different areas of the town. To give boost to tourism, some area on the south of the town is proposed to be developed between Jal Mahal and Sobha Sagar Talab(both places are of historical importance) as a place for various activities of tourism. A 45 meter wide green belt along state highway and 60 meter wide green belt along periphery road have been provided. Apart from this, 30 meter wide green belt along railway line has also been provided.

Note:- Area of existing town i.e. 225 hectares has not been included in the proposals.
Agricultural Zone:

10600 hectares of land has been reserved for agricultural zone. This zone will, however, not eliminate the essential building development within this area such as the extension of existing villages contiguous to abadi-deh if undertaken under a project approved or sponsored by Government and other allied and ancillary facilities necessary for the maintenance and improvement of this area as an agricultural area.

Zoning Regulations:
The legal sanctity to the proposals regarding land use is being given to the effect by a set of zoning regulations which form a part of this development plan. These regulations will govern the change of land use and standards of development. They also very elaborately detail out allied and ancillary uses which will be permitted in the various major and uses and stipulate that all change of land use and development shall be in accordance with the details shown in the sector plan thereby ensuring the preparation of detailed sector plans for each sector to guide the development and enforce proper control.

XVII Relaxation of agricultural zone:

In the case of any land laying in Agriculture zone, Government may relax the provisions of this development plan-

(a) for use and development of the land into a residential or industrial colony provided the coloniser has purchased the land for the said use and developed prior to the material date and the coloniser secures permission for this purpose as per Rules.

(b) for use of land as an individual site (as distinct from an industrial colony) Provided that-

(i) the land was purchased prior to the material date;
(ii) the Government is satisfied that the need of the industry is such that it cannot await alternative allotment in the proper zone;
(iii) the owner of the land secures permission for building as required under the Rules;
(iv) the owner of the land undertakes to pay to the Director, as determined by him, the proportionate charges as and when called upon by the Director in this behalf and during the interim period makes satisfactory arrangement for discharge of effluent.

Explanation:

The word 'purchase' in the regulation shall mean acquisition of full proprietary rights and no lesser title, such as agreement to purchase etc.
XVIII Density:

Every residential sector shall be developed to the sector density indicated as prescribed for it in the drawing subject to a maximum of 20 percent variation allowed on either side of the prescribed sector density.

XIX Provision of Farm House outside Abadi-deh in Agricultural Zone:

A farm house in agricultural zone, outside abadi-deh may be allowed if the area of the land is 2 acres or more on the following conditions:

<table>

<td>11 Meters, three storeyed</td>
<td>4 meters, single storey.</td>
</tr>
</tbody>
</table>

(iii) Set back: It shall be at least 15 meters away from the edge of the agricultural land on all sides provided that if land attached to the farm house abuts a road, the house shall be constructed with a minimum set back from the edge of the road as under:-

(a) Where the road is bye-pass to a scheduled road or an expressway: 100 meters
(b) Where the road is a scheduled road: 30 meters or as shown in the development plan
(c) Any other road: 15 meters

(iv) Approach Road

(v) Basement

(vi) Ledge, loft and Mezzanine floor

(vii) Services, Water supply and Drainage

(a) Good potable water supply should be available in the farm for human consumption in case farm house is built.
(b) Open Sanitary drains or covered drains to be provided to clean the sheds in case of Dairy farms, Drains are to be provided for carrying rain water in case of all buildings.
(c) Septic tank to be provided for disposal of human and animals waste as per provisions of the Rules.
(d) The distance between the septic tank and open well or tubewell shall be as provided in the Rules.

Provided that Government may amend the minimum size of the farm for any scheme sponsored by the State Government/State Agency for the proper utilisation of the agricultural zone.

XX Relaxation of Development Plan:

Government may in case of hardship or with a view to save any structure constructed before the material date, relax any of the provisions of the Development Plan on principles of equity and justice on payment of such development charges and on such other conditions as it may deem fit to impose.

XXI Provisions of Information Technology Units and Cyber Parks/Cyber Cities:

(i) Location

(a) Information Technology Industrial Units will be located in Industrial Areas/Industrial Zones only;
(b) Cyber Parks/ Information Technology Parks will be located either in Industrial Areas or Industrial/Residential Zones abutting on minimum 60 meters ROW sector roads in the form of integrated development. However, no manufacturing units will be permitted in such parks;

(c) Cyber Cities: The location of such a facility will be decided by the Government;

(iii) Miscellaneous: -

I. Parking

(a) One Equivalent Car Space for every 50 square meters of floor area shall be provided for parking in cyber park/Information Technology Park, Information Technology Industrial Unit and Cyber City;

(b) Three Tier basement for Information Technology Industry for meeting the requirement of parking shall be allowed subject to clearance from Public Health requirement.

II. Other Activities

(a) Incidental commercial activities like Banks, Restaurants, Insurance Offices etc. shall be permitted subject to restriction of 4% of the total area of the Cyber Park/Information Technology Park;

(b) Only 5% of the area of the Cyber City shall be allowed for Group Housing and 4% of the total area of the Cyber City shall be permitted for Commercial/Institutional uses;

(c) No residential plotted development shall be allowed in a Cyber City;

(d) For a Cyber City Project if allowed in Agricultural Zone, the entrepreneur shall make the arrangement of water supply and other facilities like sewerage disposal/drainage etc;

III. The Government may impose any other condition as deemed necessary from time to time.

XXII Setting up of Communication Towers: -

I Location:

The communication towers can be setup in Residential, Commercial, Industrial, Transport and Communication, Public and Semi-public, Open Spaces, Special and Agricultural zones with the permission of the competent authority.

II Approach:

The following norms for approach road would apply as per location of the tower:

(i) Residential, Commercial, Industrial, Institutional Zone : 30 feet wide

(ii) Agricultural Zone : 11 feet wide

III Height:

The maximum height of the tower from the ground level should not exceed 60 meters subject to clearance from the competent Authorities.
