Explanatory note on the Draft Development Plan for controlled area 2021AD Ferozepur Jhirka

I Introduction

The town is said to have been founded by Feroz Shah Tughluq as a military post for putting down neighbouring turbulent tribes. The remains of the old town names Dhand still exist in the north of the town site where there are many tombs and shrines in ruins. The old part of the town was surrounded with a high wall which is now in ruins. This place is called Jhirka because of a spring from a perennial stream which originates from a number of fissures in the rocks nearby. The spring is about 4 kilometers from the town on the western side and is connected with a metalled road. This picturesque gorge has been described by Babar in his memoirs as a beautiful spot. Fairs are being held here twice a year in the months of August and November. The legend also links the place with the sojourn of Pandavas during their exile.

II Location and regional setting

Ferozpur Jhirka town is situated on Gurgaon-Alwar State Highway at a distance of 82 kilometers from Gurgaon and 42 kilometers from Nuh. The town is the tehsil head quarter of newly formulated Mewat district. Though the town is having a favourable location being on Gurgaon-Alwar Highway, yet it is not served with rail transport. The town, being a small one does not seem to have a bigger regional influence zone.

III Climate and physiography

The town is bounded on the south and west side by a physical barrier i.e. presence of a bund. Lower ranges of Aravallies are providing a back drop in the west. During rains, the bund protects the town from the flood water. Some low lying areas on the western side of the fort are also submerged with water. The town and its surrounding region has sub tropical continental monsoon. The rainfall is very scanty and is mainly concentrated during monsoon season. Hot summer, cool winter and unreliable rainfall are the peculiar features of the region. The region is characterized with low ranges of Aravali Hills, the one of the oldest mountain systems of the world. The hillocks are dissected by rainfall torrents. The soil is mainly of rocky and laterite type which is not very fertile. The underground water level is very deep and the irrigation facilities are poor.

IV Availability of infrastructure

The various economic and social forces which were operating in the town in the past, have determined the existing land use pattern of the town. It seems that the old town was concentrated within the old fortness, and afterwards it expanded to the west of the fort. The commercial and shopping areas are located all along the major
streets, roads of the town and Gurgaon-Alwar Road. Most of the town is quite old and residential areas are therefore, in disappointed conditions. However the town has all the characteristics of the haphazard growth and mixed land uses. Public buildings like offices of SDO (Civil), Tehsil, BDPO are located along Delhi-Alwar Road.

V Economic base
As per census 2001, the population of the town was 17755 persons including population of villages Dund Kalan & Dund Khurd as the settlements of these villages within the habbast of Ferozpur Jhirka. The people are mainly engaged in trade and service. The agricultural economy also has a significant share. The industrial base of the town is very poor as this town has no important large scale industry.

VI Population/demography
Ferozepur Jhirka town had a total population of 17755 persons as per 2001 census. The decade wise population growth rate of the town is described as bellow:

</table>

During the decade 1951-61, the town registered decennial growth rate of 29.9%. During the next decade of 1961-71 the town experienced a growth rate i.e. 37.87% which however showed decline in the next decade i.e. 1971-81. The growth rate during last two decades was 32.05% and 43.03% respectively. Now as a result of induced development the town is expected to experience a higher growth rate of 60.00%. It is expected that the town would achieve a population of 46000 persons by the end of 2021 A.D. i.e. an additional population of 28245.

VII Existing Transportation Network
The town is well connected with the surrounding areas and neighboring towns through road network. Gurgaon-Alwar State Highway passes through the town. The town is lacking the rail facility so far.

VIII Need for Declaration of controlled area
During the decade 1961-71 the town experienced tremendous growth which was more than the average national growth rate of population. As a result of which the area within the municipal town as well as outside municipal town has been venerable to haphazard and unplanned development. Therefore, a sizeable area around municipal town of Ferozpur Jhirka had been declared as controlled areas under the Punjab Scheduled Road and Controlled Areas Restriction of Unregulated Development Act, 1963 (Punjab Act 41 of 1963) vide notification no. 10DF-82/1708, dated the 29th January, 1982 published on 9th March, 1982.

IX Proposals
The Draft Development Plan has been prepared for the population of 46000 persons. The existing town covers total built up area of about 64.00 hectares which accommodates a population of 17755 persons. This area is thickly populated. The development plan proposals have been made to accommodate an additional population of approximately 28245 persons by 2021 A.D. A residential density of about 200 persons per hectare has been proposed for the residential sectors. The extent of various uses is given bellow:

Note: 63.69 hectares area of the existing town has not been included into the above areas.
Description of land uses

(i) Residential
To accommodate the projected population of 28,245 persons an area of 142.00 hectares, has been proposed for the development of residential sectors in addition to the existing residential area in the town. Sector-6, 6A, 7-7A, 8, 9, 10 and 11 have been proposed for residential use. The average density of the residential sectors works out to be about 200 persons per hectare.

(ii) Commercial
An area of about 27 hectares in sector-4 has been proposed for commercial uses viz. Retail trade, warehousing, storage and wholesale trade etc.

(iii) Industrial
About 66 hectares of land has been proposed in sector-1 for the development of the industries. The industrial area has been provided in the eastern side and is kept sufficiently away from the residential sectors wherever possible. Further, the industrial zone has been adequately segregated from the other uses by green belts.

(iv) Transport and communication
Keeping in view the accessibility from the farthest point of the industrial and institutional zone, the transport nagar has been provided in the centrally located sector-3 which also abuts on the eastern periphery road. An area of about 97 hectares has been provided for transport and communication use. Attempt has been made to maintain the hierarchy of roads. The periphery roads and major development plan roads have been proposed to be of 75 meters width and the sector dividing roads with a minimum width of 60 meter. The alignment of periphery road to the west of existing bundh has been proposed to be raised which itself would act as a bundh in future. The classification of roads with their land reservations has been indicated in the following table:

(v) Public utilities
An area of about 33 hectares has been provided for public utilities like water supply, electric grid sub station, disposal works etc. in sector-9 and in southern side of existing town. The proposal of disposal works in eastern side of the town near village Rajauli and site for grid sub station on Tijara road has also been earmarked to cope with the demand arising from time to time in addition to the existing services.

(vi) Public and semi public uses
An area of about 58 hectares has been proposed for such use in sector-2 and 5. This area is well connected with rest of the town by V-1, V-2 and V-3 roads.

(vii) Open spaces
An area of about 113 hectares will come under green belts and open spaces, which will include 50/45 metres wide green belt along V-1 & V-2 roads and the area reserved in sector-3 & 9.

(viii) Agricultural zone
A sizeable area has been reserved as agricultural zone. This zone will, however, not eliminate the essential building development within this area such as the extension of existing village contiguous to abadi-deh if undertaken under project approved or sponsored by Government for other ancillary and allied facilities necessary for maintenance and improvement of an agricultural area.

Zoning regulations
The legal sanctity to the proposals regarding land use is being given to the effect by a set of zoning regulations (Annexure-B) which form a part of this development plan. These regulations will govern the change of land use and standards of development. They also will elaborately detail out allied and ancillary uses which will be permitted in the various major land uses and stipulate that all change of land use and development shall be in accordance with the details shown in the sector plan thereby ensuring the preparation of detailed sector plans for each sector to guide the development and enforce proper control.
Annexure B

Zoning Regulations
Governing use and development of land in the Controlled Areas around Ferozpur Jhirka as shown in Draft Development Plan Drawing No. DTP (G) 1420/05, dated the 1st September, 2005.

germination of medium and large software companies/Information Technology Enabled Services wherein no manufacturing units may be allowed; and

“(zf)” “Green Belt” shall mean, strips of land along sector/arterial road shown in the development plan, primarily meant for the widening of the sector/arterial road in future.

III  Major land uses/zone
(1)  (i)  Residential zone
(ii)  Commercial zone
(iii)  Industrial zone
(iv)  Transport and communication zone
(v)   Public utility zone
(vi)  Public and semi public zone (institutional zone)
(vii) Open spaces zone
(viii) Agriculture zone

(2)  Classification of major land uses is according to Appendix A.

IV  Division into sectors
Major land uses mentioned at serial Nos.(i) to (vii) in zoning regulation-III above, which are land uses for building purposes, have been divided into sectors as shown, bounded by the major road reservations and each sector shall be designated by the number as indicated on the drawing.

V  Detailed land uses within major uses
Main, ancillary and allied uses, which are subject to the other requirements of these regulations and of the rules may be permitted in the respective major land uses zones are listed in Appendix B sub-joined to these zoning regulations.

VI  Sectors not ripe for development
Notwithstanding the reservation of various sectors for respective land uses for building purposes, the Director may not permit any changes in their land use or allow construction of building thereon from consideration of compact and economical development of the controlled area till such time as availability of water supply, drainage arrangement and other facilities for these sectors are ensured to his satisfaction.

VII  Sectors to be developed exclusively through government enterprises
(1)  For the development of sector reserved for commercial use, private developers shall be permitted to develop to the extent of 10% of the sector area as per the layout plan approved by competent authority. Balance 90% area shall be developed exclusively by the Government or a Government undertaking or by a public authority approved by the Government.

(2)  Notwithstanding the provision of clause (1) above, the Government may reserve at any time, any other sector for development exclusively by it or by the agencies indicated above.

VIII  Land Reservations for major roads
(1)  Land reservation for major roads marked in the Drawing shall be as under:-

<table>

</tr>
</tbody>
</table>

(2)  Width and alignment of other roads shall be as per sector plans or as per approved layout plans of colonies.
(3)  Benefit of only 50% of the area falling under major roads and adjoining green belts, if any, shall be allowed towards plottable area/FAR in the plotted/group housing colony; while approving the layout plans for the sector/colony to be developed by Haryana Urban Development Authority and private colonizers. In case of
commercial colony and IT Park/Cyber City the benefit of 10% of FAR of the total area of the site or area falling under green belt and sector roads whichever is less shall be allowed.

IX Non-conforming uses either existing or having valid change of land use permission

(1) With regard to the existing projects located in the zones other than conforming-use zone in the Development Plan, such non-conforming uses shall be allowed to continue for a fixed period to be determined by the Director, but not exceeding ten years; provided that the owner of the building concerned:

(a) Undertakes to pay to the Director, as determined by him the proportionate charges towards the external development of the site as and when called upon by the Director to do so in this behalf;
(b) During the interim period makes satisfactory arrangements for the discharge of effluent to the satisfaction of the Director; and
(c) Shall not be allowed to expand the existing project within the area of non conforming use.

(2) With regard to the projects having valid Change of Land Use permissions, and located in the zones other than conforming use zone in the Development Plan, such non-conforming uses shall be allowed to continue, provided that the owner of the building concerned:

(a) undertakes to pay to the Director, as determined by him the proportionate charges towards the external development of the site as and when called upon by the Director to do so in this behalf; and,
(b) during the interim period makes satisfactory arrangements for the discharge of effluent to the satisfaction of the Director.

X Discontinuance of non conforming uses

(1) If a non-conforming use of land has remained discontinued continuously for a period of two years or more, it shall be deemed to have been terminated and the land shall be allowed to be re-used or re-developed only according to the conforming use.

(2) If a non-conforming use building is damaged to the extent of 50 percent or more of its re-production value by fire, flood, explosion, earthquake, war, riot or any other natural calamity, it shall be allowed to be re-developed only for a conforming use.

(3) After the discontinuance of projects included under clause IX, the land shall be allowed to be redeveloped or used only for conforming use.

(4) After a lapse of period fixed under clause IX (1), the land shall be allowed to be redeveloped or used only for conforming use.

XI The development to conform to sector plan and zoning plan

Except as provided in regulation IX, no land within major land use shall be allowed to be used and developed for building purposes unless the proposed use and development is according to the details indicated in the sector plan and zoning plan or the approved colony plan in which the land is situated.

XII Individual site to form part of approved layout or zoning plan

No permission for erection or re-erection of building on a plot shall be given unless-

(i) The plot forms a part of an approved colony or the plot is in such area for which relaxation has been granted as provided in regulation XVII; and
(ii) The plot is accessible through roads laid out and constructed up to the situation of the plot to the satisfaction of the Director.

XIII Minimum size of plots for various types of buildings

(1) The minimum size of the plots for various types of uses shall be as below:-

| (i) | Residential plot | 50 Square meters |
| (ii) | Residential plot on subsidised industrial housing or slum dwellers housing scheme approved by the Government | 35 Square meters |
| (iii) | Shop-cum-residential plot | 100 Square meters |
| (iv) | Shopping booths including covered corridor or pavement in front | 20 Square meters |
| (v) | Local service industry plot | 100 Square meters |
| (vi) | Light industry plot | 250 Square meters |
| (vii) | Medium industry plot | 8000 Square meters |
The minimum area under a Group Housing Scheme will be 5 acres if it forms a part of licenced colony and 10 acres if it is developed independently. However, in case a group housing scheme is floated by Haryana Urban Development Authority or any other Government Agency, the size of group housing site shall be as specified in the scheme.

XIV Site coverage, height and bulk of building under various types of buildings - Site coverage and the height up to which building may be erected within independent residential and industrial plots, shall be according to the provisions contained in Chapter VII of the Rules. In the case of other categories, the maximum coverage and the floor area ratio, subject to architectural control, as may be imposed under regulation XVI shall be as under:

</tbody>
</table>

Note: Basement floor shall be permitted as approved in the zoning plan. The basement shall not be used for storage purposes.

XV Building lines in front and rear of buildings - These shall be provided in accordance with rules 51, 52 and 53 of the Punjab Scheduled Roads and Controlled Areas Restriction of Unregulated Development Rules, 1965.

XVI Architectural control - Every building shall conform to architectural control prepared under rule 50 of the Punjab Scheduled Roads and Controlled Areas Restriction of Unregulated Development Rules, 1965.

XVII Relaxation of agricultural zone - In the case of any land laying in Agriculture zone, Government may relax the provisions of this development plan -

(a) For use and development of the land into a residential or industrial colony provided the coloniser has purchased the land for the said use and developed prior to the material date and the coloniser secures permission for this purpose as per Rules.

(b) For use of land as an individual site (as distinct from an industrial colony)

Provided that-

(i) the land was purchased prior to the material date;
(ii) the Government is satisfied that the need of the industry is such that it cannot await alternative allotment in the proper zone;
(iii) the owner of the land secures permission for building as required under the Rules;
(iv) the owner of the land undertakes to pay to the Director, as determined by him, the proportionate charges as and when called upon by the Director in this behalf and during the interim period makes satisfactory arrangement for discharge of effluent.

Explanation - The word 'purchase' in the regulation shall mean acquisition of full proprietary rights and no lesser title, such as agreement to purchase etc.

(c) (i) for use of non/less polluting Rural Industrial Scheme/Small Scale Industrial Units upto two acres in the Agriculture Zone of the Controlled Areas of High/Hyper potential zones falling in Industrially backward blocks on public roads/rastas (other than scheduled road and National Highway) of minimum 12 meters width after leaving at least 20 meters wide strip of green belt along the road to be used for its development in future.
(ii) for use of non/less polluting Medium and Large Scale Units in Agriculture Zone of Controlled Areas of High/Hyper potential zones falling in industrially backward blocks mentioned in industrial policy on roads of minimum 24 meters width (including scheduled road) after leaving at least 30 meters wide green belt along the road to be used for its development in future.
(iii) the site should not fall within restricted belt notified under "the Works of Defence Act, 1903" around Defence installations, if any."

XVIII Density- Every residential sector shall be developed to the sector density indicated as prescribed for it in the drawing subject to a maximum of 20 percent variation allowed on either side of the prescribed sector density.

XIX Provision of farm house outside abadi-deh in agricultural zone.-A farm house in agricultural zone, outside abadi-deh may be allowed if the area of the land is 2 acres or more on the following conditions:

<table>
<thead>
<tr>
<th>Size of farm house</th>
<th>Main building of the dwelling unit</th>
<th>Ancillary building of main dwelling unit</th>

IT Enabled Services are business processes and services, the end products/services of which are:-

- Delivered outside India.
- Delivered over communication network., and
- Either externally contracted (out-sourced) or provided by a remote subsidiary of the same company (out-located).

Note: Services which would not be included are:-

(i) Remote production/manufacturing units
(ii) The Corporate offices of companies or their local branches
(iii) Virtual business on Internet.

The following services which meet the above criteria would be included:-

(i) Back-Office Operations
(ii) Call Centres
(iii) Content Development or Animation
(iv) Data Processing
(v) Engineering and Design
(vi) Geographic Information System Services
(vii) Human Resource Services
(viii) Insurance Claim Processing
(ix) Legal Database
(x) Medical Transcription
(xi) Payroll
(xii) Remote Maintenance
(xiii) Revenue Accounting
(xiv) Supports Centres and
