ANNEXURE-A
Explanatory note on Draft Development Plan 2021 AD for Controlled Areas at Nuh.

Introduction:
Before 2005 AD, Nuh was a tehsil headquarter which is situated about 45 kilometers south of Gurgaon on Delhi-Alwar State Highway. At present Nuh is district headquarter of district Mewat. This town had its importance earlier due to trade in salt, which was manufactured in the neighbouring villages. The town is practically a gateway to Mewat Area and is industrially backward centre. It is a very small town located at the foothills of Aravali range. To the west of the town is a fine masonry tank of red sandstone with a Chhatri possibly connected with the name of Chuhil Mal, adorned with beautiful floral design. The tomb of Seikh Musa, an example of the combination of Muslim and Rajput architecture, is at a distance of about two and a half kilometers from the town. It is famous for the ‘shaking minarets’. The beauty lies in the fact that if one minaret is shaken, the other automatically gets shaken.

The region has sub tropical monsoon climate. The rainfall is below average and is mainly concentrated during monsoon. Hot summer, cold winter and unreliable rainfall are the peculiarity of the region. Mewat region is a rolling plain dominated by the extension of Aravalis. The hillocks are dissected by rain fed torrents. The region has light soils particularly relatively sandy loams, coarse loams and rocky surfaces. The underground water is very deep and is not of good quality. The irrigation facilities are poor.

Linkages:
The town is located at Delhi-Alwar State Highway and is well connected by roads with all the major towns in the region. It is situated at a distance of only 75 kilometers from Delhi, the National Capital; 20 kilometers from Sohna, the town of hot spring; 40 kilometers from Rewari, the meter gauge rail head; 32 kilometers from Palwal, the Delhi Mathura broad gauge rail head and 51 kilometers from the Industrial Complex of Faridabad. Because of the various incentives declared by the State Government and also due to the smooth linkages, the town has enough potential to attract large number of entrepreneurs including rapid development of the centre as well as of the region.

Economic Base:
The town has a poor economic base. Due to lack of industrial infrastructure, the town could not achieve healthy growth in economic sector. The town’s economy sustains on the economy of the surrounding region, which is basically agricultural in nature. Due to rugged topography, scanty rainfall, poor availability of ground water, and poor irrigation facilities, the agricultural activity cannot be undertaken in a healthy manner. Agriculture mainly depends on rainfall and is practiced only with rudimentary methods. Mechanization of agriculture is almost nil.
The whole Mewat region, in which the town falls, has been declared by the State Government as Industrially Backward region.

A number of incentives are given to the entrepreneurs to establish industries for the speedy development of the town. To regulate this process of development and to check haphazard growth in and around the town, the controlled area around Nuh town under the provisions of the Punjab Scheduled Roads and Controlled Areas Restriction of Unregulated Development Act, 1963 was declared vide notification No. 9123-10DP-81/14290, dated the 2nd September, 1981 published in Haryana Government Gazette dated the 03rd November, 1981. Further, keeping in view the haphazard growth along the Gurgaon-Alwar State Highway an additional controlled area was declared towards north-eastern side of the existing town vide notification No. JD-90/4179, dated the 28th March, 1990 published in Haryana Government Gazette on dated the 28th March, 1990. The town presently has 6668 hectares of area around it as controlled area in which the development process is to be regulated.

The decennial growth rate of past decades for projecting the population for the year 2021 AD would not be realistic, since the town would attract the population from the surrounding region as a result of induced industrial development and provision of better infrastructure. So the Draft Development Plan has been prepared to accommodate a population of 30000 persons upto the year 2021 AD.

**Development Proposals:**

The Draft Development Plan has been prepared for the population of 30000 persons. The existing town covers total built up area of about 63.69 hectares which accommodates a population of 11038 persons. This area is thickly populated. The development plan proposals have been made to accommodate an additional population of approximate 19000 persons by 2021 AD. A residential density of about 200 persons per hectare has been proposed for the residential sectors. The extent of various uses is given below:

63.69 hectares area of the existing town has not been included into the above areas.

**Residential:**

To accommodate an additional population of approximate 19000 persons, an area of 97 hectares acres has been proposed for the development of residential sectors, in addition to the existing residential area in the town. The average density of the residential sectors works out to be about 200 persons per hectare. Sectors 1, 2 (part), 5 and 9 has been proposed for residential use.

**Commercial:**

An area of about 32 hectares has been proposed in sector 3 and sector 10 for commercial uses viz. Retail trade, ware-housing, storage and wholesale trade etc. Sector-10 is proposed to be developed as city centre.

**Industrial:**

About 42 hectares of land has been proposed in sector-8 for the development of the industries. The industrial area has been provided in the southern side. Further, the industrial zone has been adequately segregated
from the other uses by green belts of 100 meters width. Keeping in view the future demand the area can be extended towards east.

**Transport and Communication:**
Keeping in view the accessibility from the farthest point of the town, the main bus stand has been provided in the centrally located sector-3 which also abuts on the Gurgaon-Alwar road. An area of about 12 hectares has been proposed for transport nagar in sector-7 on Gurgaon-Alwar Road. Attempt has been made to maintain the hierarchy of roads. The periphery roads and major development plan roads have been proposed to be of 75 meters width and the sector dividing roads with a minimum width of 60 meters. The classification of roads with their land reservations has been indicated in the following table:

**Public Utilities:**
An area of about 20 hectares has been provided for public utilities like water supply, grid sub station, disposal works etc. in western side of Gurgaon-Alwar road to the north of the town to cope with the demand arising from time to time in addition to the existing water services. An additional area of 10 hectares has been proposed for disposal works at Nuh-Muradbas Road in agriculture zone. A grid sub-station with an area of 25 acres has been proposed in Sector 8 in eastern side of Gurgaon-Alwar road in south of the town.

**Public And Semi Public (Institutional) Uses:**
An area of about 87 hectares has been proposed for institutional use in sector-6 in south of the town and 11, 11A and 12 in the northern side of the town at Gurgaon-Alwar road.

**Open Spaces and Green Belt:**
An area of about 163 hectares will come under open spaces including the area under green belts along V-1 and V-2 roads.

**Agricultural Zone:**
A sizeable area has been reserved as agricultural zone. This zone will, however, not eliminate the essential building development within this area such as the extension of existing village contiguous to abadi-dehi if undertaken under project approved or sponsored by Government for other ancillary and allied facilities necessary for maintenance and improvement of an agricultural area.

**Zoning Regulations:**
The legal sanctity to the proposals regarding land use is being given to the effect by a set of zoning regulations (Annexure B) which form a part of this development plan. These regulations will govern the change of land use and standards of development. They also will elaborately detail out allied and ancillary uses which will be permitted in the various major land uses and stipulate that all change of land use and development shall be in accordance with the details shown in the sector plan thereby ensuring the preparation of detailed sector plans for each sector to guide the development and enforce proper control.

**ANNEXURE B**

**Zoning Regulations:**
Governing use and development of land in the controlled areas of Nuh as shown in Revised Draft Development Plan Drawing No. DTP(G) 1407/2005, dated the 5th August, 2005.

III. Major Land Uses/Zone

(1) Residential Zone
(ii) Commercial Zone
(iii) Industrial Zone
(iv) Transport and Communication Zone
(v) Public Utility Zone
(vi) Public and Semi Public Zone (institutional Zone)
(vii) Parks and Open Spaces Zone
(viii) Agriculture Zone

(2) Classification of major land uses is according to Appendix A.
IV. Division into Sectors

Major land uses mentioned at serial Nos.(i) to (vii) in zoning regulation-III above, which are land uses for building purposes, have been divided into sectors as shown, bounded by the major road reservations and each sector shall be designated by the number as indicated on the drawing.

V. Detailed land uses within major uses

Main, ancillary and allied uses, which are subject to the other requirements of these regulations and of the rules may be permitted in the respective major land uses zones are listed in Appendix B sub-joined to these zoning regulations.

VI. Sectors not ripe for development

Notwithstanding the reservation of various sectors for respective land uses for building purposes, the Director may not permit any changes in their land use or allow construction of building thereon from consideration of compact and economical development of the controlled area till such time as availability of water supply, drainage arrangement and other facilities for these sectors are ensured to his satisfaction.

VII. Sectors to be developed exclusively through Government Enterprises

(1) Change of land use and development in sectors which are reserved for the commercial zone and the semi-public zone shall be taken only and exclusively through the Government or a Government undertaking or a public authority approved by the Government in this behalf and no permission shall be given for development of any colony within these sectors.

(2) Notwithstanding the provision of clause (1) above, the Government may reserve at any time, any other sector for development exclusively by it or by the agencies mentioned above.

VIII. Land Reservations for Major Roads

(1) Land reservation for major roads marked in the Drawing shall be as under:-

</tr>
</tbody>
</table>

(2) Width and alignment of other roads shall be as per sector plans or as per approved layout plans of colonies.

IX. Industrial non-conforming uses

With regard to the existing industries shown in the zones other than industrial zone in the development plan, such industrial non-conforming uses shall be allowed to continue for a fixed period to be determined by the Director but not exceeding ten years; provided that the owner of the industry concerned:-

(a) undertakes to pay to the Director, as determined by him the proportionate charges towards the external development of the site as and when called upon by the Director to do so in this behalf;

(b) during the interim period makes satisfactory arrangements for the discharge of effluent to the satisfaction of the Director; and

(c) no further expansion shall be allowed within the area of the non-conforming use.

X. Discontinuance of non conforming uses

(1) If a non-conforming use of land has remained discontinued continuously for a period of two years or more, it shall be deemed to have terminated and the land shall be allowed to be re-used or re-developed only according to the conforming use.

(2) If a non-conforming use building is damaged to the extent of 50 percent or more of its re-production value by fire, flood, explosion, earthquake, war, riot or any other natural calamity, it shall be allowed to be re-developed only for a conforming use.

(3) After a lapse of period fixed under clause IX, the land shall be allowed to be redeveloped or used only for conforming use.
XI. The development to conform to sector plan and zoning plan

Except as provided in regulation IX, no land within major land use shall be allowed to be used and developed for building purposes unless the proposed use and development is according to the details indicated in the sector plan and zoning plan or the approved colony plan in which the land is situated.

XII. Individual site to form part of approved layout or zoning plan

No permission for erection or re-erection of building on a plot shall be given unless-
(i) the plot forms a part of an approved colony or the plot is in such area for which relaxation has been granted as provided in regulation XVII; and
(ii) the plot is accessible through roads laid out and constructed upto the situation of the plot to the satisfaction of the Director.

XIII. Minimum size of plots for various types of building

(1) The minimum size of the plots for various types of uses shall be as below:-

(i) Residential plot
(ii) Residential plot insubsidised industrial housing or slum dwellers housing scheme approved by the Government
(iii) Shop-cum-residential plot
(iv) Shopping booths including covered corridor or pavement in front
(v) Local service industry plot
(vi) Light industry plot
(vii) Medium industry plot

50 Square meters
35 Square meters
100 Square meters
20 Square meters
100 Square meters
250 Square meters
8000 Square meters

(2) The minimum area under a group-housing scheme will be 5 acres if it forms a part of a licensed colony and 10 acres if it is developed independently. However, in case a group housing scheme is floated by Haryana Urban Development Authority or any other Government agency, the size of group housing sites shall be as specified in the scheme.

XIV. Site coverage, Height and bulk of building under various types of buildings

Site coverage and the height up to which building may be erected within independent residential and industrial plots, shall be according to the provisions contained in Chapter VII of the Rules. In the case of other categories, the maximum coverage and the floor area ratio, subject to architectural control, as may be imposed under regulation XVI shall be as under:

N.B.: Basement floor shall be permitted as approved in the zoning plan. The basement shall not be used for storage purposes.

XV. Building lines in front and rear of buildings

These shall be provided in accordance with rules 51, 52 and 53 of the Punjab Scheduled Roads and Controlled Areas Restriction of Unregulated Development Rules, 1965.

XVI. Architectural control

Every building shall conform to architectural control prepared under rule 50 of the Punjab Scheduled Roads and Controlled Areas Restriction of Unregulated Development Rules, 1965.

XVII. Relaxation of agricultural zone

In the case of any land laying in Agriculture zone, Government may relax the provisions of this development plan-(a) for use and development of the land into a residential or industrial colony provided the coloniser has purchased the land for the said use and developed prior to the material date and the coloniser secures permission for this purpose as per Rules.
(b) for use of land as an individual site (as distinct from an industrial colony)

Provided that-(i) the land was purchased prior to the material date;
(ii) the Government is satisfied that the need of the industry is such that it cannot await alternative allotment in the proper zone;
(iii) the owner of the land secures permission for building as required under the Rules;
(iv) the owner of the land undertakes to pay to the Director, as determined by him, the proportionate charges as and when called upon by the Director in this behalf and during the interim period makes satisfactory arrangement for discharge of effluent.

Explanation

The word 'purchase' in the regulation shall mean acquisition of full proprietary rights and no lesser title, such as agreement to purchase etc.

XVIII Density

Every residential sector shall be developed to the sector density indicated as prescribed for it in the drawing subject to a maximum of 20 percent variation allowed on either side of the prescribed sector density.

XIX. Provision of Farm House outside Abadi-Deh in Agricultural Zone:

A farm house in rural zone, outside abadi-deh may be allowed if the area of the land is 2 acres or more on the following conditions:-

(iii) Set back:

It shall be at least 15 meters away from the edge of the agricultural land on all sides provided that if land attached to the farm house abuts a road, the house shall be constructed with a minimum set back from the edge of the road as under:-

(a) Where the road is bye-pass to a scheduled road 100 meters
(b) Where the road is a scheduled road 30 meters
(c) Any other road 15 meters

(iv) Approach Road-

Any revenue rasta/road defined in the revenue record.

(v) Basement-

Basement shall be permitted to the maximum extent of ground floor coverage but in the basement water closet and bathroom shall not be permitted.

(vi) Ledge, loft and Mezzanine floor-

Ledge, loft and mezzanine floor shall be permitted within the building subject to the restrictions above as well as the restrictions stipulated in the definition given in part-II

(vii) Services, Water supply

(a) Good potable water supply should be available in the farm for human consumption in case farm house is built.
(b) Open Sanitary drains or covered drains to be provided to clean
the sheds in case of Dairy farms, Drains are to be provided for carrying rain water in case of all buildings.

(c) Septic tank to be provided for disposal of human and animals waste as per provisions of the Rules.

(d) The distance between the septic tank and open well or tubewell shall be as provided in the Rules:

Provided that Government may amend the minimum size of the farm for any scheme sponsored by the State Government/State Agency for the proper utilisation of the rural zone.

XX. Relaxation of development plan

Government may in case of hardship or with a view to save any structure constructed before the material date, relax any of the provisions of the Development Plan on principles of equity and justice on payment of such development charges and on such other conditions as it may deem fit to impose.

XXI. PROVISIONS OF INFORMATION TECHNOLOGY UNITS AND CYBER PARKS/CYBER CITIES

(i) LOCATION

(a) Information Technology Industrial Units will be located in Industrial Areas / Industrial Zones only;

(b) Cyber Parks/ Information Technology Parks will be located either in Industrial Areas or Industrial/Residential Zones abutting on V-1/M-1 and V-2/M-2 roads in the form of integrated development. However, no manufacturing units will be permitted in such parks;

(c) Cyber Cities:- The location of such a facility will be decided by the Government;
