Annexure-A
Explanatory note on Draft Development Plan-2031 AD for controlled areas Hodal

I Background:
Hodal town is situated at a distance of 88 kilometres from Delhi and 58 kilometres from Faridabad city. It is one of the growing towns on National Highway Number-44/19 very near to Haryana-Uttar Pradesh border. The Delhi-Bombay broad-gauge railway line also passes through Hodal which caters to large passenger and goods traffic. Hodal town is very well linked with its hinter land and is an important nucleus of educational, commercial and cultural activities for the surrounding region. It has a grain mandi which being the last on Haryana side has been attracting competitive business with Kosi Mandi of Uttar Pradesh.

II Location and regional setting:
Hodal town is located at a distance of 88 kilometers from Delhi on the Delhi-Mathura National Highway Number-44/19. This town is situated at 77º 22’ North latitude and 28º 54’ East longitude at a height of 190 metres above mean sea level. This town is well connected by roads with the surrounding towns of the state as well as to the neighboring State of Uttar Pradesh.

III Physiography:
The topography of this town is almost plain terrain. To the west of this town flows the Western Yamuna canal. The town falls in the sub-tropical region of India. The average rainfall is 50 to 70 centimeters. Wind blows from west in winter and east in summer.

IV Availability of Infrastructure:
(a) Utilities:
The water to the town is supplied from tubewells located at 3 different locations in the town. The basic infrastructure facilities of electricity, telephone and roads exist in the town. However, these facilities are not adequate hence provision of all modern infrastructure facilities has been envisaged in the Development Plan.

(b) Social Infrastructure:
Basic social infrastructure exists in the town such as civil hospital, veterinary Hospital, education and cultural institutions. Adequate provision of social infrastructure has also been taken into consideration.
V Population / Demography:
The demographic profile and population projection of Hodal town is as follows:-

<table>
<thead>
<tr>
<th>Year</th>
<th>Population</th>
<th>Growth rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>1951</td>
<td>8303</td>

</tbody>
</table>

From the above table, it is evident that population of Hodal town is continuously growing since, 1951. The growth rate of Hodal town decreased only in the decade 1971-81 i.e. from 36% to 32%. The population of Hodal town in 2001 was 38306 persons. Keeping the above in view and assuming that certain rural migration may take place due to planned development of the town, the town shall have a population of 1,70,652 persons by the year 2031 A.D with a residential density of 250 persons per hectares.

VI Need for declaration of controlled area:
With the rapid increase of population the town is sprawling haphazardly. The trend of development is along Delhi- Mathura road i.e. North and South side of the town. Though Railway line is a physical barrier, major trend would be toward Palwal town, along National Highway. In order to check the haphazard development of industries and residential colonies and to channelize the Urban growth in a planned way, controlled areas have been declared vide Haryana Government notification No. 5730-SDP-77/5876, dated the 27th May, 1977, appeared in Haryana Government Gazette on 7th June, 1977, additional controlled area declared around Hodal town vide Haryana Government, Town and Country Planning Department notification No. CCP(NCR)FCA-III/2003/2652 dated the 11th November, 2003 appeared in Haryana Government Gazette on 18th November, 2003 and Controlled area of village Tikri Brahman, Phulwari, Aurangabad, Khere Srai, Dighot, Mitrol, Tumasara, Khataila, Gudrana, Sarai, Siha, Marauli, Khatela Sarai, Lohina, Seoli & Banchari declared vide notification No. CCP(NCR)/FBD/ALNG/NH-2/TKRI-BMN/CA/2009 /1759 dated 23rd June, 2009.

VII Major Land Use Proposals:
Keeping in view the natural trend of growth as well as prospects of growth and limitations, the proposed circulations relating to the pattern and distribution of land uses has been integrated with the existing town in a systematic manner. In order to accommodate the Total populations of 170652 persons up to 2031 AD the proposals have been given keeping in view the existing facility of the town. The land use proposals of the Development Plan are as under:

DESCRIPTION OF LAND USES:
I. Residential:
The existing town has mixed land uses, population density is high. As this town has existing Mandi for hinterland and impetus to growth of industry and commerce would necessitate the planned residential development. To accommodate the additional future population of 132346 persons by 2031 AD an area of 537.80 hectares has been proposed for residential use in Sector 2,4,5,7,10-A,11 and 12. The residential area proposed in the Development Plan
shall be developed on neighbourhood concept by making provision of all community facilities and services within the sectors on average net residential density of 250 persons per hectare.

In addition to above, the following provisions have also been made in the Development Plan with increased density:

a. The additional area for infrastructure shall be provided in the already planned / developed residential sectors to meet out the requirement of the additional population.

b. The minimum width of the roads in a residential colony / sector shall not be less than 12 meters.

c. The minimum area for parks / open spaces in a residential colony / sectors shall be planned in such a manner that it shall meet the minimum norm of 2.5 square meters per person.

2. Commercial:

Apart from existing facilities of market places, grain market etc. it is proposed to have 62.75 hectares of land for commercial activities which include retail trade, wholesale trade, warehouse, offices, banks, hotels, restaurants, cinema etc. The commercial area has been proposed along NH-44/19 in sector- 1 (part) and in sector 2 (part).

3. Industrial:

Keeping in view the wind direction and growth trend of Industries, the industrial area has been proposed in the south –west of town along National Highway-44/19. An area of approximately 174.08 Hectares has been proposed in Sector-6, 8 and 9.

4. Transport and Communication:

A transport nagar has been proposed in sector 1 between existing Delhi –Mathura railway line and National Highway-44/19. The Road network has been planned on a grid-iron pattern to facilitate easy movement of traffic and pedestrian. The detail of road network is as follows:

<table>
<thead>
<tr>
<th>Serial number</th>
<th>Classification</th>
<th>Roads</th>
<th>Land reservation</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>V-1</td>
<td>National Highway-2</td>
<td>Existing width with 60 metres wide green belt on both side including 12 wide meters service road.</td>
</tr>
<tr>
<td>2</td>
<td>V-2</td>
<td>Periphery road</td>
<td>75 meters road with 50 metres green belt on both sides</td>
</tr>
<tr>
<td>3</td>
<td>V-3</td>
<td>Sector road</td>
<td>45 metres wide road</td>
</tr>
</tbody>
</table>

The road network has been planned keeping in view the inter city and intra city traffic as well as the location of the town in its regional setting, for smooth and fast movement of city traffic. The sector dividing road has been proposed as V-3 with a minimum width of 45 metres.

5. Public Utility:

At present water works exist in the middle of the town which is sufficient to cater to the present population. To meet the future requirement @ 135 liter per capita per day (LPCD) sufficient potable ground water is available in village Banswa 8 kilometres from Hodal town where 15 number tube wells are operating. To meet the demand of water supply an area of approximately 6.04 hectare has been proposed near sector 1 along Delhi-Mathura railway line.

In addition to this, an area of approximately 10.08 hectares has been proposed for Sewerage treatment plant in sector 10 near existing drain and an area of 10.08 hectares has been proposed for solid waste disposal in the revenue estate of village Bhulwana. near Uttar Pradesh border.

6. Public and semi public uses:

The town is a sub-divisional head quarter, health and educational facility are also not well located, hence, an area of approximate 56.68 hectares has been proposed in sector-3 for Public and semi Public uses. Public and semi Public area has also been proposed in sector-2 on Hodal- Nuh road for mini secretariat and administrative complex etc.

7. Park and open spaces:

At present the town does not have an organized park and open space except a tourist complex of Haryana Government named Dabchick. Keeping in view the requirement of the town an area of 178.13 hectares has been proposed for parks, open spaces and green belts etc.

8. Special zone:

An area of approximately 40.48 hectares has been proposed as special zone in sector-1 which shall include Godown/Warehouse for agriculture products.
Agricultural Zone:
Rest of the controlled areas have been designated as rural zone with a view to keep it free from large scale building activities so that it could be further utilized for expansion of the town. However, rural and small scale industries and farmhouses are permissible in the zone subject to the conditions stipulated in zoning regulations and policy framed by the Government.

Zoning Regulations:
The Legal sanctity to the proposals regarding land use is being given effect by a set of zoning regulations (Annexure-B) which form a part of this development plan. These regulations shall govern the change of land use and standards of development. They also very elaborately detail out allied and ancillary uses which shall be permitted in the various major land uses and stipulate that all change of land use and development shall be in accordance with the details shown in the sector plan thereby ensuring the preparation of detailed sector plans for each sector to guide the development and enforce proper control.
