ANNEXURE - A

EXPLANATORY NOTE ON DRAFT DEVELOPMENT PLAN GANAUR – 2021 A.D.

(I) Background

Ganaur town is situated at a distance of 59 kilometers from Delhi. It is a sub-divisional headquarter in district Sonipat and is one of the growing towns on National Highway No. 1 in Haryana. It is an old Mandi Township which drives its name from the favourite slave of Sher Shah Suri named Ganno. This town housed a major steel industry called Bharat Steel Tubes (B.S.T).

(II) Location and regional setting

Ganaur town is located at a distance of 59 kilometers from Delhi on the Ambala – Delhi rail line. It is also connected with the Grand Trunk Road by a metalled road link of about 2 miles. This town is situated at 29° 08’ North latitude and 76° 42’ East longitude and at a height of 225 meters above mean sea level. This town is well connected by roads to the interior of the state as well as to the neighbouring state of Uttar Pradesh.

(III) Physiography

The topography of this town is almost plain terrain. In the west of this town Western Yamuna Canal flows. The region falls in sub tropical region of India. The average rainfall is 50 to 70 centimeters. Wind blows from west in winter and east in summer.

(IV) Availability of infrastructure

(a) Utilities

This town has water supply from tubewells at 3 different locations in town. Electricity, telephone and roads exist in the town. These facilities are not adequate hence provision of all modern infrastructure facilities has been kept in proposals.
(b) Social infrastructure

Basic social infrastructure exists in the town such as civil hospital, veterinary hospital, education and cultural institute. The adequate provision of social infrastructure has also been taken into consideration in the proposals.

Population/Demography

The demographic profile and population projections of Ganaur Town are given in the table below:

<table>
<thead>

</tr>
</tbody>
</table>

Note: * indicates the projected population figures.

The town is functioning as an important market, administrative and service center for its hinterland. After setting up of the major industry namely Bharat Steel Tubes the growth rate of the town went upto 96.32% in the decade 1971-81 and in 1981-91 the population growth rate was 27.06%. Due to industrialization along National Highway No. 1 and acquisition of approximately 275 acres of land by industries department the town has experienced spurt in the population. The connection to Delhi by Electric Train has become an additional advantage for the town. It is anticipated that with the implementation of better-framed development proposal, the town will have a population of 83000 persons by year 2021 A.D.

(VI) Need for declaration of Controlled Areas

With the rapid increase of population the town is sprawling haphazardly. The trend of development is towards Ganaur village along railway line and on the eastern side of railway station for residential purpose. Though Railway Line is a physical barrier, the major trend would be towards National Highway. In order to check the haphazard development of industries and residential colonies and to channelise the urban growth in a planned way, controlled areas have been declared vide Punjab Government, Department of Town and Country Planning, notification No. 2468/2TCP-65/26037, dated the 18th August, 1965, published in the Punjab Government Gazette of 17th September, 1965, the additional controlled area declared around Ganaur Town vide Haryana Government, Town and Country Planning Department, notification No. CCP/SCA-3/97/1248, dated the 25th August, 1997, published in Haryana Government Gazette of 25th September, 1997, and controlled Areas 1-A and 1-B declared around Ganaur Town vide Haryana Government, Town and Country Planning Department, notification No. CCP(NCR)/SCA-3/99/521, dated the 13th March, 1999, published in Haryana Government Gazette of 13th March, 1999 for which this Draft Development Plan is prepared.

(VII) Proposals

Keeping in view the natural trend of growth as well as prospects of growth and limitations, the proposed circulation pattern and distribution of land uses has been integrated with the existing town in a systematic manner. In order to accommodate the projected population of 83000 persons upto 2021 AD the proposals have been given keeping the existing town, industry and other facility into mind in coordinated way in the controlled areas, as well as in the area falling within Municipal limits of the town. However the proposals shown within Municipal limits are not statutory and will only provide guidelines for future development of existing town. The various proposals in the development plan are as under:
The population of this town will be 85000 and the town density will be 55 persons per hectare approximate.

### Proposed Land uses

#### Residential

Keeping the existing town area into consideration where population density is quite low at present, it is proposed that by infilling those areas and proposing additional land for future population, the total land required for year 2021 AD comes out to be 1733.70 acres to accommodate 85000 persons. As this town has existing Mandi for hinterland and impetus of industry and commerce would necessitate the planned residential development. To accommodate the future population 13 number of residential sectors have been proposed in the Revised Draft Development Plan.

#### Commercial

Apart from existing facilities of market place, grain market etc. it is proposed to have 141.60 acres of land for commercial activities which include retail trade, wholesale trade, ware housing, offices, banks, hotels, restaurants, cinema etc. These proposals are housed in sector 12 of Revised Draft Development Plan. Out of this, approximately 20 acres of land has been earmarked for district centre in sector 4.

#### Industrial

The Bharat Steel Tubes is the main industry in the town, which is capable of attracting many similar small scale units in the vicinity. Hence, keeping the trend of growth into consideration an area of 1031 acres has been earmarked in the plan. Sectors 2, 18, 19, 20, 21, 21A, 22, 23 and 24 have been earmarked for industrial purpose. Sector 20 and 21A have been proposed along the existing National Highway No. 1 wherein the Haryana State Industrial Development Corporation has already developed its industrial estate. Small scale industries under the Rural Industries Scheme are also allowed in rural zone.

#### Transport and Communication

The road network has been planned in a hierarchical manner to facilitate easy movement of traffic and people. The width of this road network is designated as follows:

<table>
<thead>
<tr>
<th>V-I</th>
<th>Express Highways/Grand Trunk Road</th>
</tr>
</thead>
<tbody>
<tr>
<td>V-I(a)</td>
<td>Roads with Existing Width</td>
</tr>
<tr>
<td>V-II</td>
<td>65 metre</td>
</tr>
<tr>
<td>V-II(a)</td>
<td>45 metre</td>
</tr>
<tr>
<td>V-III</td>
<td>30 metre</td>
</tr>
</tbody>
</table>

The road network has been planned keeping in view the inter-city and intra-city traffic as well as the location of the town in its regional setting. Ganaur town is mainly connected with the national capital, state capital and city of handlooms Panipat. For a smooth and fast movement of intra-city traffic 65 metres wide roads have been proposed. The sector dividing roads have been proposed as V-III with a minimum width of 30 metres. Wherever necessary, V-II (a) sector roads with a width of 45 metres have been proposed in the Revised Draft Development Plan. A sizeable area of approximately 70 acres in sector 14 has been proposed to be developed as a transport Nagar and for bus stand.

The National Capital Region Planning Board has proposed to strengthen the regional transport system by suggesting connecting the priority towns and Delhi Metropolitan Area towns through regional rapid transit system. The proposals have been adopted in the Draft Development Plan by envisaging Rapid Transit Corridors from Ganaur to Delhi and from Ganaur to Panipat along which local electric trains
Public Utility
To meet the demand of water supply for the town an area of 18 acres has been proposed for water supply installations to the north of Rajpura Minor. Similarly, sites have been proposed for sewerage treatment plant and solid waste disposal across the railway line near to the drain no. 6. The site for electric power plants/sub stations has also been earmarked in the Revised Draft Development Plan near village Garhi Rjara.

Public and Semi Public Uses
The town is sub-divisional headquarter. Most of the offices are scattered all around the town. Health and educational facility are also not centrally located. Hence, an area of 189 acres has been proposed in sector-9 to house administrative complex along with other facilities.

Parks and Open Spaces
At present town has no organized park or open space. Keeping in view the requirement of the town an area of 116.29 acres has been proposed in Revised Draft Development Plan for parks, open spaces and green belts. An area of approximately 27 acres in sector 8 has been earmarked for town level park and open spaces. Adequate area has been earmarked in the form of green belts along roads to save the residential areas from the environmental pollutants.

Agricultural Zone
Rest of the controlled areas have been designated as rural zone with a view to keep it free from large scale building activities so that it could be further utilised for expansion of the town. However, rural and small scale industries and farm houses are permissible in the zone subject to the conditions stipulated in zoning regulations and policy framed by the Government.

Zoning Regulations
The legal sanctity to the proposals regarding land use is being given to the effect by a set of zoning regulations (Annexure B) which form a part of this development plan. These regulations will govern the change of land use and standards of development. They also will elaborately detail allied and ancillary uses which will be permitted in the various major land uses and stipulate that all change of land use and development shall be in accordance with the details shown in the sector plan thereby ensuring the preparation of detailed sector plans for each sector to guide the development and enforce proper control.

ANNEXURE B

Zoning Regulations:

I. General:
(1) These Zoning Regulations forming part of the development plan for the controlled areas, Ganaur shall be called Zoning Regulations of Revised Draft Development Plan for Ganaur Controlled Area.

III. Major Land Uses/Zone

(1)

(i) Residential Zone

(ii) Commercial Zone

(iii) Industrial Zone

(iv) Transport and Communication Zone

(v) Public Utility Zone

(vi) Public and Semi Public Zone (institutional Zone)

(vii) Parks and Open Spaces Zone

(viii) Agriculture Zone

(2) Classification of major land uses is according to Appendix A.
IV. Division into Sectors

Major land uses mentioned at serial Nos.(i) to (vii) in zoning regulation-III above, which are land uses for building purposes, have been divided into sectors as shown, bounded by the major road reservations and each sector shall be designated by the number as indicated on the drawing.

V. Detailed land uses within major uses

Main, ancillary and allied uses, which are subject to the other requirements of these regulations and of the rules may be permitted in the respective major land uses zones are listed in Appendix B subjoined to these zoning regulations.

VI. Sectors not ripe for development

Notwithstanding the reservation of various sectors for respective land uses for building purposes, the Director may not permit any changes in their land use or allow construction of building thereon from consideration of compact and economical development of the controlled area till such time as availability of water supply, drainage arrangement and other facilities for these sectors are ensured to his satisfaction.

VII. Sectors to be developed exclusively through Government Enterprises

(1) Change of land use and development in sectors which are reserved for the commercial zone and the semi-public zone shall be taken on and exclusively through the Government or a Government undertaking or a public authority approved by the Government in this behalf and no permission shall be given for development of any colony within these sectors.

(2) Notwithstanding the provision of clause (1) above, the Government may reserve at any time, any other sector for development exclusively by it or by the agencies mentioned above.

(2) Width and alignment of other roads shall be as per sector plans or as per approved layout plans of colonies.

IX. Industrial non-conforming uses

With regard to the existing industries shown in the zones other than industrial zone in the development plan, such industrial non-conforming uses shall be allowed to continue for a fixed period to be determined by the Director but not exceeding ten years; provided that the owner of the industry concerned:-

(a) undertakes to pay to the Director, as determined by him the proportionate charges towards the aternal development of the site as and when called upon by the Director to do so in this behalf;

(b) during the interim period makes satisfactory arrangements for the discharge of effluent to the satisfaction of the Director; and

(c) no further expansion shall be allowed within the area of the non-conforming use.

X. Discontinuance of non conforming uses

(1) If a non-conforming use of land has remained discontinued continuously for a period of two years or more, it shall be deemed to have terminated and the land shall be allowed to be re-used or re-developed only according to the conforming use.

(2) If a non-conforming use building is damaged to the extent of 50 percent or more of its re-production value by fire, flood, explosion, earthquake, war, riot or any other natural calamity, it shall be allowed to be re-developed only for a conforming use.

(3) After a lapse of period fixed under clause IX, the land shall be allowed to be redeveloped or used only for conforming use.
XI. The development to conform to sector plan and zoning plan

Except as provided in regulation IX, no land within major land use shall be allowed to be used and developed for building purposes unless the proposed use and development is according to the details indicated in the sector plan and zoning plan or the approved colony plan in which the land is situated.

XII. Individual site to form part of approved layout or zoning plan

No permission for erection or re-erection of building on a plot shall be given unless:
(i) the plot forms a part of an approved colony or the plot is in such area for which relaxation has been granted as provided in regulation XVII; and
(ii) the plot is accessible through roads laid out and constructed up to the situation of the plot to the satisfaction of the Director.

XIII. Minimum size of plots for various types of building

(1) The minimum size of the plots for various types of uses shall be as below-
   (i) Residential plot 50 Square meters
   (ii) Residential plot subsidised industrial housing or slum dwellers housing scheme approved by the Government 35 Square meters
   (iii) Shop-cum-residential plot 100 Square meters
   (iv) Shopping booths including covered corridor or pavement in front 20 Square meters
   (v) Local service industry plot 100 Square meters
   (vi) Light industry plot 250 Square meters
   (vii) Medium industry plot 8000 Square meters

(2) The minimum area under a group-housing scheme will be 5 acres if it forms a part of a licensed colony and 10 acres if it is developed independently.

XIV. Site coverage, Height and bulk of building under various types of buildings

Site coverage and the height up to which building may be erected within independent residential and industrial plots, shall be according to the provisions contained in Chapter VII of the Rules. In the case of other categories, the maximum coverage and the floor area ratio, subject to architectural control, as may be imposed under regulation XVI shall be as under:

N.B: Basement floor shall be permitted as approved in the zoning plan. The basement shall not be used for storage purposes.

XV. Building lines in front and rear of buildings

These shall be provided in accordance with rules 51, 52 and 53 of the Punjab Scheduled Roads and Controlled Areas Restriction of Unregulated Development Rules, 1965.
XVI. Architectural control

Every building shall conform to architectural control prepared under rule 50 of Punjab Scheduled Roads and Controlled Areas Restriction of Unregulated Development Rules, 1965.

XVII. Relaxation of agricultural zone

In the case of any land laying in Agriculture zone, Government may relax the provisions of this development plan-

(a) for use and development of the land into a residential or industrial colony provided the coloniser has purchased the land for the said use and developed prior to the material date and the coloniser secures permission for this purpose as per Rules.

(b) for use of land as an individual site (as distinct from an industrial colony)

Provided that-

(i) the land was purchased prior to the material date;
(ii) the Government is satisfied that the need of the industry is such that it cannot await alternative allotment in the proper zone;
(iii) the owner of the land secures permission for building as required under the Rules;
(iv) the owner of the land undertakes to pay to the Director, as determined by him, the proportionate charges as and when called upon by the Director in this behalf and during the interim period makes satisfactory arrangement for discharge of effluent.

Explanation

The word 'purchase' in the regulation shall mean acquisition of full propertetary rights and no lesser title, such as agreement to purchase etc.

XVIII. Density

Every residential sector shall be developed to the sector density indicated as prescribed for it in the drawing subject to a maximum of 20 percent variation allowed on either side of the prescribed sector density.

XIX. Provision of Farm House outside Abadi-Deh in Agricultural Zone:

A farm house in rural zone, outside abadi-deh may be allowed if the area of the land is 2 acres or more on the following conditions:

<table>

</tr>
</tbody>
</table>

(iii) Set back:

It shall be at least 15 meters away from the edge of the agricultural land on all sides provided that if land attached to the farm house abuts a road, the house shall be constructed with a minimum set back from the edge of the road as under:

(a) Where the road is bye-pass to a scheduled road 100 meters
(b) Where the road is a scheduled road 30 meters
(c) Any other road 15 meters
(iv) Approach Road-
(a) Any revenue rasta/road defined in the revenue record.

(v) Basement-
Basement shall be permitted to the maximum extent of ground floor coverage but in the basement water closet and bathroom shall not be permitted.

(vi) Ledge, loft and Mezzanine floor-
Ledge, loft and mezzanine floor shall be permitted within the building subject to the restrictions above as well as the restrictions stipulated in the definition given in part-II

(vii) Services, Water supply
(a) Good potable water supply should be available in the farm for human consumption in case farm house is built.

(b) Open Sanitary drains or covered drains to be provided to clean the sheds in case of Dairy farms. Drains are to be provided for carrying rain water in case of all buildings.

(c) Septic tank to be provided for disposal of human and animals waste as per provisions of the Rules.

(d) The distance between the septic tank and open well or tubewell shall be as provided in the Rules:

Provided that Government may amend the minimum size of the farm for any scheme sponsored by the State Government/State Agency for the proper utilisation of the rural zone.

XX. Relaxation of development plan

Government may in case of hardship or with a view to save any structure constructed before the material date, relax any of the provisions of the Development Plan on principles of equity and justice on payment of such development charges and on such other conditions as it may deem fit to impose.

XXI. PROVISIONS OF INFORMATION TECHNOLOGY UNITS AND CYBER PARKS/CYBER CITIES

(i) LOCATION

(a) Information Technology Industrial Units will be located in Industrial Areas / Industrial Zones only;

(b) Cyber Parks/ Information Technology Parks will be located either in Industrial Areas or Industrial/Residential Zones abutting on V-1/M-1 and V-2/M-2 roads in the form of integrated development. However, no manufacturing units will be permitted in such parks;

(c) Cyber Cities:- The location of such a facility will be decided by the Government;
