

ORDER

In order to provide education in the rural areas, a number of CLU permissions to set up educational institutions have been granted in agriculture zone after seeking relaxation in zoning regulations from the Govt. However, this process cannot be continued for indefinite period in view of the fact that enough educational institutions are set up in the urbanizable areas or in the adjoining agriculture zone, therefore, henceforth request of relaxation in zoning regulations in such cases should only be recommended in exceptional cases, otherwise, the basic purpose of framing these zoning regulations will be defeated. While recommending relaxation in the zoning regulations, the reasons to be recorded in writing should justify the requirement of relaxation.
